Madson Muller

Frontend Web Developer

PROFILE

Frontend Web Developer based in Dublin with 14+ years of industry experience. Currently at Together Digital, delivering production websites and applications with React, Next.js, Tailwind CSS, and Storyblok headless CMS — having joined as a junior and grown into engineering-level ownership over performance, component architecture, and accessibility. My background in UX/UI design means I think about the user first — caring about the details, the craft, and making sure the finished product works as well as it looks. Originally from Brazil, I moved to Dublin in 2016 and recently became an Irish citizen — a journey I'm proud of. Irish passport holder. Available for contract and freelance engagements.

EMPLOYMENT HISTORY

Frontend Web Developer, Together Digital

Dublin

Mar 2021 – Present

- Joined as a junior developer and grew into engineering-level ownership of the frontend build.
- Building production websites and applications with React, Next.js, and Tailwind CSS.
- Integrating Storyblok headless CMS — architecting content models, components, and editorial workflows.
- Delivering projects for togetherdigital.ie, togethervideo.ie, and their client portfolio across Ireland.
- Translating signed-off designs into pixel-perfect, responsive, accessible front-end code.
- Cross-browser testing, pre-launch QA, and post-launch support.

Web Designer Specialist (Freelance), DS3 Media

Dublin

Oct 2020 – Mar 2021

- Updates and improvements to existing project features and components.

Web Designer Specialist, DS3 Media

Dublin

Jan 2018 – Oct 2020

- Optimised user interfaces and built new features to improve SEO, interactions, and bounce rates.
- Conducted UX research — user journeys, storyboards, wireframes.
- Produced wireframes and prototypes in Adobe XD, Photoshop, and Illustrator.
- Front-end development with HTML, CSS, JavaScript, jQuery, AngularJS, and Node.js.

Designer & Front-end Developer, Nina

Recife, Brazil

Jun 2018 – May 2019

- New mobile application development from scratch.
- Planned wireframes and strategies based on user research.
- Delivered consistent UX across mobile devices using HTML, CSS, Angular, and Node.js.

Web Designer, Stefanini

Brazil

Sep 2012 – Sep 2016

- Front-end maintenance, image optimisation, briefings, and design guidance.
- Produced visual components and assets to grow channel audience.
- Shipped applications under Scrum and Design Sprint methodologies.

Graphic Designer, IFPE

Brazil

Sep 2011 – Sep 2012

- Communications design and market signage.
